PROFILE

Results-driven **Web3 Developer** and **Customer Success Specialist** with 7+ years of experience spanning crypto exchanges, decentralized application development, and community management. Built production-grade Web3 products including a DEX on Tempo Network. Proven track record of maintaining **95% customer satisfaction** and translating user feedback into product improvements.

EXPERIENCE

Web3 Developer & Builder

2025 - Present

Independent / X (Twitter) Ecosystem

- Built **TempoSwap** — a full-featured decentralized exchange (DEX) on the Tempo Network with token swapping, liquidity pools, and cross-chain bridging
- Developed interactive gaming applications with sprite-based animation systems and real-time game mechanics
- Worked with Web3 technologies: smart contracts, wallet integration (MetaMask), DeFi protocols

Customer Support Specialist

2022 - 2025

MEXC Global (Crypto Exchange)

- Maintained a **95% customer satisfaction rating** by resolving issues quickly and effectively
- Documented technical problems and built a comprehensive knowledge base
- Trained new team members to improve overall support efficiency

Community & Support Lead

2018 - 2021

HOTBIT Exchange

- Delivered responsive and empathetic user support across live chat and social channels
- Improved engagement by fostering a welcoming community environment
- Advocated for product enhancements based on user feedback and pain points

PROJECTS

TempoSwap DEX

Web3 · DeFi

Decentralized exchange on Tempo Network — token swaps, liquidity pools, yield farming, cross-chain bridging from Ethereum, Polygon & Arbitrum.

Fighting Game Engine

JavaScript · Canvas

Built a 2D fighting game with multiple characters, sprite animations, combo systems, and real-time combat mechanics.
